THE EVOLUTION OF OILHEAT

**Bioheat® is Abundant.**

# It's a Match Made to Last!

The abundance of confidence Massachusetts homeowners place in their Bioheat® fuel retailers is matched only by the abundant supply of heating oil and Bioheat® fuel that's available.

- \* Bioheat® fuel is made from low-sulfur heating oil and biodiesel, two fuels that America has in surplus.
- \* America is the world's leading oil producer, having produced approximately 8.9 million barrels per day in 2016.
- \* In case of emergency, the Northeast Home Heating Oil Reserve contains one-million barrels of ultra-low sulfur heating oil for homes and businesses in the Northeast.
