THE EVOLUTION OF OILHEAT

**Bioheat® is Efficient.**

# It's a Match Made to Last!

Nothing proves the efficiency of Bioheat® fuel more than a Massachusetts winter. When your heating system can warm you up faster than the snow accumulates, it isn't hard to figure out why homeowners statewide love Bioheat® fuel.

- \* Newer boiler models use weather responsive controls in order to reduce energy usage during milder winters.
- \* The City of Boston has included Bioheat® in upgrades to many decades-old parks and facilities as part of the Greenovate Boston initiative, which aims to reduce the city's greenhouse gas emissions by 25 percent by 2020 and by 80 percent by 2050.
- \* New heating equipment can reduce energy use by up to 40 percent!
