THE EVOLUTION OF OILHEAT

**Bioheat® is Safe.**

# It's a Match Made to Last!

From Provincetown to Williamstown, and from Ipswich to Westfield, Massachusetts homeowners love their Bioheat® fuel for its record of safety and reliability. And with good reason:

- \* Bioheat® fuel burns cleanly, reducing particulates and greenhouse gas emissions, so it's safer for the environment.
- \* Bioheat® fuel has a higher flash point than traditional heating oil, so it's safer for your home.
- \* Bioheat® fuel makes heating equipment work more efficiently, so it's safer for your wallet.
