

Bioheat[®] is Abundant.

Keeping America comfortable for many years to come.

Some people mistakenly assume that oil supplies are running low, but this is simply not the case. **There's an abundant and reliable supply of Bioheat® Fuel**, more than enough to heat your home for many years to come.

- **Crude oil is produced in 31 states and over 50 countries.** The U.S. is not dependent on any one country or region for its oil supply.
- **The U.S. Strategic Petroleum Reserve has a capacity of 727-million barrels** and is the largest stockpile of government-owned emergency crude oil in the world.
- **The Northeast Home Heating Oil Reserve** is a one-million barrel supply of ultra-low sulfur heating oil for homes and businesses in the Northeast.
- **Domestically produced Bioheat® Fuel** (made by blending heating oil with American-made biodiesel) is pushing our country closer than ever toward energy independence.
- **Biodiesel production supports \$16.8 billion** in total economic impact, more than 62,000 jobs, and \$2.6 billion in wages paid.
